SKILLS AND EXPERTISE

Programming Languages : Python, Java, C , C++, JavaScript, PHP, Django
Technologies : HTML, CSS, Bootstrap
Database : SQL, PostgreSQL
Version Control System : Git, GitHub
Soft Skills : Critical thinking, Data-driven decision making, communication, team collaboration.
Tools : Excel, MS Word, Visual Studio Code, Jupiter Notebook.

EXPERIENCE

Python Developer Intern | Techplement June 2024 – July 2024

- Lead a team of Python developer interns, planning and organizing projects and completing code reviews.
- I contributed to the project of an automated email sender using SMTP server.
- It included offering a user interface, raising the project's value, establishing an efficient connection, retrieving user credentials and send in bulk at once to portray Email Automation .

Freelancing | Python Developer July 2024 – Present

- I'm hands-on every day with real-world projects, actively applying my technical skills and contributing directly to the **US, UK, European clients**.
- I'm writing, testing, and debugging code, handling data processing tasks, integrating APIs, and building backend features by interacting with the development and testing teams.
- Working with developers around the globe from Africa, Asia, Europe, USA

PROJECTS

Personal Portfolio Website

- I have made my own personal website in which I have used different sections such as Education, Experience, Reviews from my clients, and integrated the EmailJS for the automatic emails also making it mobile responsive.
- I have designed a fully functional portfolio website that resembles my education, my experience , my projects, my entire details.
- It also provides an option to directly contact me through Gmail and other mediums. I have designed it using html, CSS
